MPIC/TSG/RED-186-70
30 July 1970

MEMORANDUM FOR: Chief, Research & Engineering Division, TSG

SUBJECT : Foreign Travel Between 1 July and 31 December 1970 and
1 January and 30 June 1971

REFERENCE : (a) MPIC/TSG/RED-136-70 Memo Re Subject, Dated
5 May 1970

(b) Memo for the Record by SA/TSG Re Subject, Dated
15 May 1970

1. Per telecon this date with [] I was updated with respect to the status of the European and Far East trips proposed for RED personnel in reference (a). Reference (b) contains the updated information.

2. At the present time it appears that we have approval for two RED personnel to visit Europe in accordance with the itinerary specified in reference (a). [] were the two individuals whose names were somewhat arbitrarily submitted in reference (a). If we are to take advantage of this opportunity, it is necessary that a decision be made concerning the present candidates and that they prepare a staff study as soon as possible required for the final approval of this travel. I await your instructions for the accomplishment of this task.

3. The Far East trip was not approved during this period, but the door was left open for one "TSG/RED type" to the Far East in the spring. Likewise, any other travel we plan for the first half of Calendar Year 71 should also be programmed and submitted to Chief, TSG for approval and promulgation at this time. I suggest an announcement to this effect be made at the next staff meeting.

MEMORANDUM FOR THE RECORD

SUBJECT: Foreign Travel between 1 July and 31 December 1970

25X1 1. I was informed by [] on the current status of
foreign travel as it affects TSSG. On 13 May the DDI Planning
Officer and NPIC's PPBS reviewed the foreign travel plan of NPIC
and made a number of deletions. The planned trip to the Far East
for two TSSG representatives was deleted. The trip to Europe for
25X1 [] was approved. ✓

25X1 2. [] questioned the justification for a trip to the
Far East. He stated that Mr. Lundahl and [] were planning
a trip to the Far East in the Spring of 1971 and suggested that
25X1 [] could be responsible for reporting on exploitation R&D
aspects. However, there is still a good chance that an additional
trip to the Far East in the spring could be justified allowing one
TSG R&D type and one IEG PI type to travel. [] suggested
that the justification should be more definitive than the past
justifications submitted which were subsequently disapproved. 25X1

25X1 3. This means that prior to the next submission of foreign
travel plans (1 January to 31 June 1971) that a well-organized
justification statement should be made clarifying Mr. Lundahl's
trip [] and a TSG/IEG trip during the same period. 25X1
